Quallion LLC Receives Silver Boeing Performance Excellence Award

Sylmar, Calif. (April 21, 2011) - Quallion LLC, a world leader in developing and manufacturing customized lithium ion batteries, today announced that it has received a 2010 Boeing Performance Excellence Award. The Boeing Company issues the award annually to recognize suppliers who have achieved superior performance. Quallion maintained a Silver composite performance rating for each month of the 12-month performance period, from Oct. 1, 2009, to Sept. 30, 2010.

“Quallion’s goal is to exceed the high performance standards that are a necessary when delivering our product to a customer, and to be recognized for something our employees strive to do continuously is very pleasing,” said Vincent Visco, vice president of military and aerospace power groups at Quallion LLC. “We celebrate this award and plan to continue to dedicate our efforts to delivering a safe, reliable product with performance excellence to all our aerospace and military clientele.”

The Boeing Company awarded a total of 558 suppliers for achievements in either a Gold or Silver level Boeing Performance Excellence Award. Quallion is among 417 suppliers to be awarded the Silver level of recognition.

About Quallion LLC

Quallion designs, fabricates and manufactures state-of-the-art lithium ion cells and battery packs, and develops new battery chemistries for the military, aerospace, medical and automotive industries. Building on its legacy leadership position in the medical device industry, the company has developed a range of novel enabling technologies that include the world’s smallest implantable secondary battery and the proprietary Zero-Volt™ and SaFE-LYTE™ technologies. Leveraging its core engineering capabilities, Quallion has established itself as a leader in applications where advanced battery technology, safety, reliability and custom engineering are most valued.
